You will recall that in the FY87 program we have a "zero" initiative for an expandable computer facility (50,000 sq. feet plus support space). The initiative is to begin funding in FY88. You are looking for a "DDS&T building" right now to free space in the new Headquarters building. It would make sense to locate the computer facility in that building. There would be some economy involved, we could give the DDS&T more and better service, we would acquire space (and backup processing power) somewhat earlier than under the FY87 initiative. Based on a casual lunchtime conversation between Gary and Evan, the DDS&T sees this as a very appealing idea. We know our requirements and are ready to advise your space hunters.

Bill
